Egyptian Foundation For Reproductive Medicine and Embryology (EFRE)

In Collaboration with

Obstetrics and Gynecology Department, Aswan University

10 - 12 November at **Tolip Hotel Aswan**

Dear Esteemed colleagues,

As no time in vivid memory has the reproductive health a more pressing concern. The explicit and great expansion of the reproductive health domain, particularly during the last four decades poses additional charge for the health care providers. At meantime, it is ruefully that the field has become a nominated arena for mal-practice and disregard. These challenges has bustled the Egyptian foundation for reproductive medicine and embryology (EJRE), as the master organization in Egypt in the field of reproductive health, to partake with the department of Obstetrics and Gynecology of Aswan university, as a leading organization in upper Egypt, to streamline their 1st collaborative meeting.

This gathering allows us, who are in the front lines for contending the reproductive health snags, to regroup, exchange ideas, and be exposed to the cutting edge research and to selflessly fill the gaps that allow for malpractice to breach through. It is also, the outset pace to realize the practicability of the "whole twining", not only, between EJRE and Aswan university, but with other Upper Egyptian universities as well. The meeting will be held in the stunning Aswan city which is a hub for culture and history and has a perfectly striking weather. Wishing an edifying, delightful and transformative days in Aswan.

Organizing Committee

WEDNESDAY

10 - 11 - 2021

09.00 AM - 11.00 AM: Registration

11.00 AM - 12.00 PM: Opening ceremony

12.00 PM-1.30 PM:

1st session

Chairpersons

Alphabetical

- Prof Abdou saeed
Sohag university
- Prof Hamed Yousef
